

## Hearing research in Cambridge: the present and future

Date: 21st October, 2013, 12:15 – 17:30

Venue: Lightfoot Room, Divinity School, St. John's College

The aim of this meeting is to bring together the groups undertaking hearing research in Cambridge so that we can update each other about our current and future research programmes and discuss how we should present ourselves to the outside world in the future.

People should leave the meeting knowing the interests and expertise of the different research groups in Cambridge, so that they understand where there might be opportunities for collaboration. We will also discuss how to strengthen connections and visibility of hearing research in Cambridge.

### Schedule

- 12.15 **Registration**
- 12.30 **Dr. Richard Turner**, *Department of Engineering*  
Bayesian inference and hearing
- 13.00 **Lunch**, sandwiches and fruit
- 14.00 **Dr. Bob Carlyon**, *MRC Cognition and Brain Sciences Unit*  
Auditory Scene Analysis in Electric and Acoustic Hearing
- 14.30 **Dr. Matt Davis**, *MRC Cognition and Brain Sciences Unit*  
Adaptive processing of spoken language
- 15.00 **Dr. David Baguley**, *Depts of Audiology & Otolaryngology, Addenbrooke's*  
Overview of hearing & balance related research themes at Addenbrooke's
- 15.30 **Coffee Break**
- 16.00 **Dr. Ian Winter**, *Dept. of Physiology and Development and Neuroscience*  
Signal processing in the auditory brainstem: in sickness and health
- 16.30 **Prof. Roy Patterson**, *Dept. of Physiology and Development and Neuroscience*  
Collaboration in Cambridge and around the world: speech streaming, pitch imaging and compressive distortion
- 17.00 **Prof. Brian Moore**, *Department of Psychology*  
On-going and future projects on hearing and hearing aids
- 17.30 **wrap-up**
